

M113 ARMORED PERSONNEL CARRIER SUSTAINMENT SOLUTIONS, PARTS & SERVICES

The M113 is a fully tracked armored personnel carrier that was developed to provide an air-mobile, survivable and reliable light tracked vehicle able to be air-lifted, air-dropped, and parachuted by C-130 and C-141 transport planes. ISO Group provides spare parts and solutions for several versions of the M113; the M113A1, M113A2, and M113A3.

ISO Group has experience in M113 OEM and Aftermarket MRO Supply Chain:

“Legacy” Obsolescence Management

ISO Group can support many military and aviation platforms for an indefinite period. ISO Group maintains inventory, manufacturer relationships, blueprint and specification databases and can continue to support maintenance and repair operations for an extended period. ISO Group reduces life cycle costs for MRO facilities and governments by simplifying and managing the supply of spare parts.
